Teachers‘ interim evaluation of the DELA-NOBA project – September 2014

Dear teachers,

Thank you for your participation and contribution to the DELA-NOBA project. We would like to ask you a few questions about your opinions regarding the project so far.

1. Reflect on the overall aims and objectives of the project. Have your opinions about language awareness and language awareness activities changed since the beginning of the project? In what way?

2. Briefly describe your experiences of working with language awareness in schools up until now (e.g. positive experiences, difficulties, unexpected outcomes).

3. Do you have suggestions for developing language awareness activities which are particularly suitable for the Nordic and Baltic countries?
